## ACKNOWLEDGMENTS

---

This proceedings contains papers presented at the eighth conference on Semantics and Linguistic Theory, held on May 8-10 1998, at the Massachusetts Institute of Technology.

Thanks are due to the conference organizers at MIT and elsewhere who made this volume possible through their efforts. This conference could not have happened without the efforts of the Administrative Staff Members and volunteers. Many thanks to them for their hard work, and to the reviewers who had the difficult job of choosing a few abstracts out of the many submitted.

Finally, our thanks to the Field of Linguistics at Cornell University, CLC Publications, Sheila Haddad and Angie Tinti for making this publication possible.

Devon Strolovitch and Aaron Lawson
