PREFACE

We hereby present the proceedings of the Eighteenth Annual Meeting. The conference, which took place in February of 1992, featured a Parasession on the Place of Morphology in a Grammar and a Special Session on the Typology of Tone Languages. The papers from the special session appear in our companion volume, BLS 18S.

We send our thanks to everyone who helped make this year's conference a success, and also to those who helped with the production of this volume: David Peterson and Yoon-Suk Chung, for helping proofread papers, and Laurel Sutton, for her patience, guidance and dedication.
