Foreword

We are pleased to present the proceedings of the BLS 31 General Session and Parasession on Prosodic Variation and Change, held at the University of California, Berkeley in February 2005. We would like to thank the contributors to this volume and all those who attended and participated in the conference. In addition, we wish to thank the students who volunteered their time to make the conference a success, especially Reiko Kataoka and Nicole Marcus for their hard work organizing the highly successful BLS party. We are also grateful to Maziar Toosarvandani and David Mortensen for their generous assistance with LaTeX. Special thanks are due to the UC Berkeley Graduate Assembly for their financial assistance with the publication of this volume. Last but not least, we acknowledge the generous support of the Doreen B. Townsend Center for the Humanities at UC Berkeley and the UC Berkeley Graduate Assembly, without which the conference would not have been possible.
