ACKNOWLEDGMENTS

This volume of proceedings contains papers presented at the ninth conference on Semantics and Linguistic Theory, held on February 19-21, 1999, at the University of California, Santa Cruz.

Thanks are due to the conference organizers at U.C. Santa Cruz and elsewhere who made this volume possible through their efforts. This conference could not have happened without the efforts of the Administrative Staff Members and volunteers. Many thanks to them for their hard work, and to the reviewers who had the difficult job of choosing a few abstracts out of the many submitted.

Finally, our thanks to the Field of Linguistics at Cornell University, CLC Publications, Aaron Lawson, Sheila Haddad and Angie Tinti for making this publication possible.
